## SECTION 5: FIREFIGHTING MEASURES

### Suitable (and unsuitable) extinguishing media

**Suitable extinguishing media:** Use extinguishing agent suitable for surrounding fire.

**Unsuitable extinguishing media:** Not known

**Specific hazards arising from the chemical:** Not flammable or combustible. Hydrogen gas is released in contact with most metals. Combustion by-products may include: carbon oxide, nitrogen oxides (NO<sub>x</sub>), oxides of phosphorous, sulfur oxide.

### Special protective equipment and precautions for firefighters

In case of fire, wear a full-face positive-pressure self-contained breathing apparatus and protective suit. Shut off all ignition sources and apply cooling water to sides of containers that are exposed to flames until well after fire is out. Avoid breathing vapors, keep upwind. Keep unnecessary personnel away.

## SECTION 6: ACCIDENTAL RELEASE MEASURES

### Personal precautions, protective equipment, and emergency procedures

Ensure adequate ventilation. Keep people away from and upwind of spill/leak. Avoid inhalation, ingestion, and contact with skin and eyes. When workers are facing concentrations above the exposure limit, they must use appropriate certified respirators. Ensure clean-up is conducted by trained personnel only. Refer to protective measures listed in Section 7 and Section 8.

### Environmental Precautions

Do not allow contact with soil, surface or ground water.

### Methods and materials for containment and cleaning up

Contain and absorb with sand or other absorbent material and place into containers for later disposal. Wash site of spillage thoroughly with water. In case of large spills, dike far ahead of spill to prevent further movement. Recover by pumping or by using a suitable absorbent material and place into containers for later disposal. Dispose in suitable waste container.

## SECTION 7: HANDLING AND STORAGE

### Precautions for safe handling

Do not ingest. Do not get in eyes, on skin, or on clothing. Do not breathe dust/fumes/gas/mist/vapors/spray. Use only with adequate ventilation. Wash hands thoroughly after handling. Do not mix with bleach or other chlorinated products, as this will cause chlorine gas to form.

### Conditions for safe storage, including any incompatibilities

Keep out of reach of children. Store in suitable, labeled containers. Do not expose to extreme temperatures.
